

LionGUARD™ CI combines high performance polystyrene insulation with proven weather-resistant facers to provide long term durability and deliver value throughout the years.

### Blending Performance and Value

Improved thermal power keeps your home cooler in the summer and warmer during cold months.

Balancing performance and economy, CI delivers year round benefits for as long as you own your home.

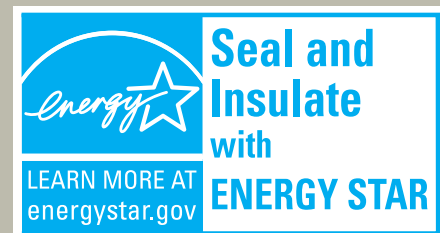

Continuous Insulation (CI) is recognized by the International Code Council as an important thermal barrier for your home's exterior. LionGUARD CI forms a rigid layer that offers permanent energy savings by improving the thermal performance of your home.

### Better Fit, Enhanced Beauty

LionGUARD CI provides a solid smooth foundation for the siding you have chosen for your home. Enhancing the finish to enhance the beauty of your home.

### Improved Thermal Performance

Save year round. Sealing leaks cuts down on air infiltration and resulting energy loss. Plus a rigid CI layer works hard in places unprotected by fiberglass, places like studs and framing members.

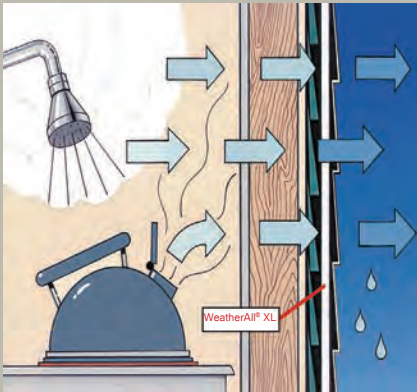

LionGUARD CI offers high-quality performance in a high-value package and incorporates features designed to meet industry best practices for the best performance under residential cladding. Designed for the professional installer to provide long-lasting benefits to the homeowner.

### Blending Performance and Value

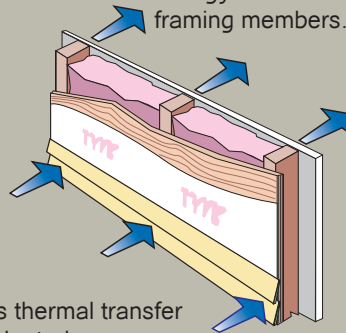

Perforated to enhance water vapor permeability. This important feature helps ensure that water vapor can escape the wall cavity. Trapped water vapor can cause mold formation and, if unnoticed, can lead to structural damage.

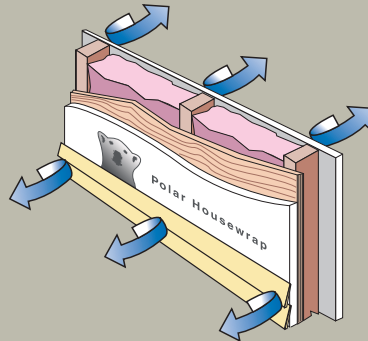

\*Also available without perforations.

### Corrects Wall Design Deficiency

Energy is lost at uninsulated framing members.

Blocks thermal transfer through studs.

### CI Plus™ R-Values

Thickness	Thermal Power		System
	75°F	25°F	
1/4"	.96	1.1	3.0
3/8"	1.4	1.6	3.4
1/2"	1.8	2.2	3.8
3/4"	2.7	3.3	4.7
1"	3.6	4.2	5.6

\* To achieve System R the reflective film must be adjacent to an average 3/8" air space.

32 Gramar Avenue • Prospect, CT 06712
